

Mass General Brigham

MGH Respirator Fit Testing

Several options available:

- Programs can arrange to do their own department fit testing with train the trainer. Contact: Drake Sorkhab (dsorkhab@mgh.harvard.edu) to make arrangements.
- The MGH Wednesday Clinic - Jack Satter Conference Room at Yawkey 2-230, from 7:30am to 4:00pm, every Wednesday
- A fit test you completed at a previous job or school (using one of the mask models that MGH provides – check with Drake Sorkhab for a list of acceptable mask)
- Coordinators or trainees can sign up for a specific time for these activities during the Orientations dates of June 14th or July 1st. Please note that if a coordinator is scheduling for trainees, they cannot be batched you will need to enter one name for each time frame. Each slot must be individual so we can have a record of each trainee for each time slot. You should also instruct your trainee that they need to come at the beginning of the assigned time.
