Key

| <u>Option</u> | <u>Collaborator</u> | <u>Mode</u> |
|---|------------------------------------|---|
| Blood – B | Academic (non Partners) - A | Identifiable (private information such as name, MRN or SSN) – I |
| Urine – U | Commercial - C | Coded (links to identifiable information exist and not available to recipient) - C |
| Procedure Specific to Study - Assign Code | Partners (BWH/MGH) – P | Non-identifiable (no identifiers or links to identifiers exist) – N |
| Procedure Specific to Study - Assign Code | | |

Flowchart for Sharing and Transferring Repository Samples

| | |
|-------------------------|---|
| Identifiable | Private information such as name, MRN or SSN |
| Coded | Link to identifiable information exists and not available to recipient |
| Non-identifiable | No identifiable information or links to identifiers exist |
| —————> | External transfer – transfer of tissue to non- Partners collaborators (Academic/Commercial) |
| - - - - -> | Internal sharing – sharing tissue with Partners researchers (BWH/MGH/Other Affiliates) |

¹ Directly identifiable samples are generally not transferred to non-Partners collaborators. IRB review will be required to transfer samples under these conditions.
